Debra Silverman, Education Administrator, asked the Commission to approve \$20 million from April 1, 2021, through June 30, 2025, for the small population county funding augmentation program. Ms. Silverman presented an overview of SPCFA, mentioning that since the implementation of Proposition 10 in FY 1999–2000, the State Commission has authorized additional funding to small population counties. She stated the statutory funding formula for counties with a small number of births does not provide adequate funds to fully operate a commission and effective First 5 programs. DISCUSSION: Member Perry mentioned that in terms of equity, the dollar amount spent per child in a small county is more than in a larger county like Los Angeles.
